ADDENDUM

RT-4600-02
Encompass™ Standalone Device
*Compatible with HexaPOD™ evo RT System*
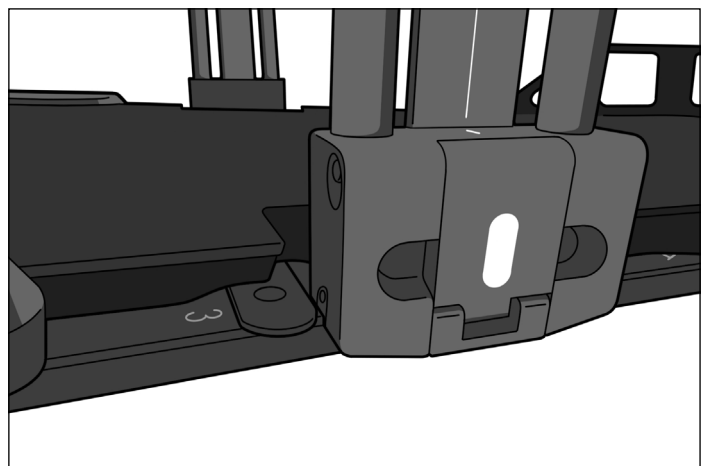

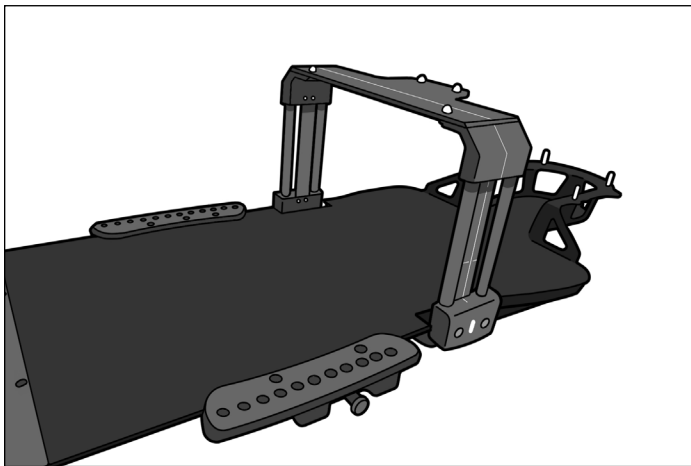

INSTRUCTIONS

INSTALLATION

1. Install the Direct Indexing Adapters onto the Encompass Device referring to the Installation & User Manual for the Direct Indexing Adapters (M034).

2. Install Encompass device on the Elekta iBEAM® evo Couchtop ensuring Indexing Position B is accessible through the cutouts on each side of the device.

! NOTE ! The Encompass device is only compatible with the Elekta HexaPOD™ Reference Frame in Position B.

Indexing Position B

3. Install Elekta HexaPOD Reference Frame in Indexing Position B on the Elekta iBEAM® evo Couchtop referring to manufacturer's instructions.

! NOTE ! Ensure no interference between Reference Frame and Encompass device.

4. Refer to the Product Guide & User Manual for Encompass Devices (M158) for operating instructions, product features, specifications, warnings, cautions, and other general precautions related to the use of the Encompass™ SRS Immobilization System.
